

## The Parent Talk System Training of Trainers

---

*The Parent Talk System is a style of communicating with children that creates emotionally healthy family relationships. It is a skill-based program that teaches parents a series of verbal skills and language patterns to help them achieve their desired objective of raising responsible, respectful children while reducing stress, strain, and family conflict.*

*There is an undeniable link between the words parents speak and the attitudes and outcomes that children create in their lives. Your choice of words, and your communication style, are critical to the self-esteem, emotional health, and personal empowerment of your children. By intentionally selecting words and language patterns that build autonomy and responsibility, you can empower your children and enhance their effectiveness as capable, caring human beings.*

*The facilitator training is designed to prepare local trainers to skillfully present the Parent Talk System to parents in their communities. This 3-day skill-based training helps local facilitators teach parents how to raise responsible children. Includes techniques to assist parents to learn communication strategies to build love and trust within their families. Participants learn training strategies that allow them to teach The Parent Talk System with expertise and confidence*

## FROM TAKING THE PARENT TALK SYSTEM TRAINING YOU WILL LEARN:

- how to speak in words that nurture, uplift, and inspire.
- how to hold children accountable for their actions without attacking their spirit or personality.
- how to set appropriate limits and make controlled choice work for them.
- to praise in ways that help children develop a strong internal sense of self-esteem.
- language that promotes independence while reducing learned helplessness.
- Strategies to help students create purpose, mission, and direction in their lives.
- to add to their tool box of parenting skills so that they and their child can become more response-able.
- to gain verbal skills for reducing children's problematic behavior while increasing children's desire to act self-responsibly and respectfully
- to utilize outstanding techniques that help teachers implement necessary corrective discipline without resorting to consequences that are unrelated, unreasonable or disrespectful.
- to avoid escalation of power struggles using effective verbal skills to increased force and control.
- what to say and what not to say to help children develop an "I can" stance toward life.
- to discover how to verbally separate the deed from the doer so children come to believe they are more than their behavior.
